# Using this CD-ROM

This CD-ROM contains Laguna VisualMedia hardware and software reference manuals in Acrobat PDF format. Both of the reference manuals are accessible from this overview document.

To open a reference manual, click a the blue link for the manual on the previous page. Alternatively, click the link for the manual in the bookmark area at the left.

The hardware and software reference manuals are organized as a group of chapter and appendix Acrobat documents.

When you click the title of a manual, you go to manual's table of contents. From the table of contents, click any topic title to go to that topic.

An electronic table of contents appears to the left of document pages. Click triangle to open and close topic categories. Click topic titles to go to topics.

A full-text index of all the documents on this CD-ROM is attached to this overview document. To search all of the documents, choose Tools > Search > Query, enter a word or phrase, and click search. A window appears with a list of all the documents that contain the word or phrase you entered. Double-click a title to open the document and see the first page with a match.

For detailed search instructions, see the [Laguna™ CD-ROM User's Guide](#).
